Miguel;

I have been a customer of Advance Office Installations for the past 5 years. I have found your company and installation personnel to be both helpful and courteous to the clients I serve.

We have worked on projects from 1 Home Office to 250 Modular Workstations where I found AOI to be an excellent partner in satisfying my customer's needs and concerns in a professional and timely manner.

I would and have referred Advance Office Installations to my clients and other Business Furniture companies because of my level of satisfaction.

I found your fees to be competitive and you don't nickel and dime you like so many other Installation Companies.

Keep up the great work.

Cordially,

Barry Taylor
The Home Office, Inc.

Your project is our priority.
